Watchful Waiting Seems Policy In Both Paine and Williams Camps-Poll Tax Unpaid by Many Voters.

dates on any ticket will be asked to indorse.

One important matter is being overlooked by the voters themselves. That is the fact that no man between 21 and 50 can vote in the city election on Nov. 6, unless he has a poll tax receipt dated prior to Oct. 6. Poll taxes must be paid 30 days before any election.

There is no doubt that in spite of more or less ill feeling between Mayor Monteyerde and J. J. Williams over the selection of the Williams candidates, the city administration will back the Williams ticket. Nor is there any doubt that every employe of the city, from street sweeper to police chief, is registered. All of them have been notified to pay their poli taxes and most of them have done no. That is a good example for all good citizens to follow.

There are only 10 days in which poli taxes may be paid, to make the certificates yalld for the city election.

### RAIL EXECUTIVE TO RELIEVE ROAD TROUBLE

WASHINGTON, Sept. 23. (Spl.)—Assurance has been given a delegation of good roads advocates that the car shortage which threatened highway improvement in Tennessee and Arkansas will be relieved. # **COTTON MARKETS**

More Bad Weather In Texas and Market Stronger on Cables, Profits Taken.

Tuesday Afternoon, Sept. 23.

More unfavorable weather in Texas and cables from Liverpool that were better than expected, stimulated additional builtsh feeling in the domestic cotton markets today which sent prices higher, but there was liberal taking of profits, which caused the affair to be rather irregular. Trading was on a fairly large scale and sentiment is mixed, for there is apparently some little improvement in feeling as to foreign exchange and demand for the actual in the belt indicates that a considerable unsatisfied short interest still exists. The producer also is showing ditermined resistance to efforts at lower prices, helped by the tendency to reduce yield expectations. The period of condition reports being just ahead there is no disjointion to offer much pressure until the effect of such can be discounted, and at the present time there is anticipation of a rather builish showing.

The steel strike news today was rath-

paid by Many Voters.

Steel Ore of Few Important Shares to Display Uncertainty In Firm Opening.

NEW YORK, Sept. 22.—United States Steel was among the few important issues to show an uncertain trend at the firm opening of today's stock market, reacting a large fraction. This was soon regained, however, on the strength shown by other favorites, especially equipments, oils, tobaccos and leathers. Before the end of the first half hourgains in Baldwin and American Locomotives, Mcxican Petroleum and Texas company, American Tobacco, Central Leather and various specialities extended from 1 to 7 points. Trading was more active and broader than in yesterdeclines became more extensive during the midseason on conflicting reports of strike conditions. Equipments forfeited part of their gains and coppers in sympathy with American Smelting, but sugars and express company shares were strong.

### "Dempsey Will Make Pugilistic History"-Jeff

"Despite all the men who have gone before him, Jack Dempsey is in line to make pugilistic history that will live forever."

This was the recent comment of James J. Jeffries, formerly world's champion heavyweight on the victory of Jack Dempsey over Jess Willerd.

tory of Jack Dempsey over Jesa Willard.

"The record he has made in the last four years." said the former champion, "with his sleep producing punches is one of the marvels of the prize ring, and stamps him as a puglist with hitting powers such as the few contests succeeded the days of bare knuckle fights."

After a mparing Dempsey's ring record with other puglists who held the title. Jeffries said:

"Some of the old-timers declare that Bob Fitzsimmons was the hardest puncher in ring history. But great as was old Fitz's record the list of knockouts he hung up was not as long as that which Dempsey compiled in four short years."

"Fitzsimmons," continued Jeffries, "was credited with two knockouts, while Dempsey has ended five bouts with the count of 10."

New Oricans—Market about 400 m from recent low and entitled to some reaction, perhaps 100 or more points would sell it here.—Beer to McPail. Weld, Liverpool, cables: "Firm mar-ket with heavy short covering, chiefly by Manchester." New York-Would take profits or good advance today.- McElroy.

taking profits.—Hubbard to Reese.

New Orleans—Lateness of crop and consequent difficulty of getting cotton and short supply in English mills is also a factor ingthe strength there. Mills held out too long in their fight against producers, counting on erop pressure.—Kofler to Clark & Co.

New York—Strong Liverpool advance followed by heavy buying, reversing straddles; also active demand from shorts and some fresh buying on unfavorable crop reports from Texas; scrive market with considerable realising on advance.—Gwathmey to Foster.

New Orleans—Apparently ideas are shaping around condition figures of 50 with considerable abandonment shown indicating crop less than 10,000,000, excluding linters; with improved weather now on think such figures will prove too low; prefer buying only on good breaks.—S. J. White to Cotter & Turner.

New York-Cotton does not fully respond to the cables being sustained by the stock market, which evidently does not consider the strike situation as improved. Yet, the crop advices being received are bad and it would seem as it liverpool was beginning to get alarmed but prices are at such a level that hesitation to take the bull aide is sure to follow.—Fallon to S. & G.

New Orleans—Map looks like generally unsettled, rainy weather; cooler in Northwest, with temperatures below 40 and 50 in Northwest Texas and Oklahoma.—Kefler to Clark & Co. New York—Very heavy profit taking by recent buyers; market acts near top for moment; should react but probably no great decline before report.—Hub-bard to Reese.

In reply to question as to killing market today, S. T. Hubbard replied: "You will have no company on shirt side until after bureau; market certainly acts loaded in face of crop advices. Chicago—San Francisco report quotes Herbert Hoover as stating that although staple foods have fallen considerably in price, he predicts there will be a further steady fall for three months.
